

CPP-16H

16 HDMI Female to Female

Couplers Patch Panel

Operation Manual

CPP-16H

1. Introduction

Thank you for purchasing CPP-16H HDMI Female to Female Patch Panel. This useful structured device will assist you with organizing your HDMI circuit system. CPP-16H is in a standard form of 2U high with 16 HDMI ports configuration which allows you to connect up to 16 sources to devices in a neat and tidy state. Cable runs can be quick and easy identified by clear numbering on the front of the panel. The female to female HDMI Patch Panel is an excellent choice for professional HDMI applications.

2. Application

- HDMI systems connection.
- HDMI extender connection.
- HDMI multi-display connection.

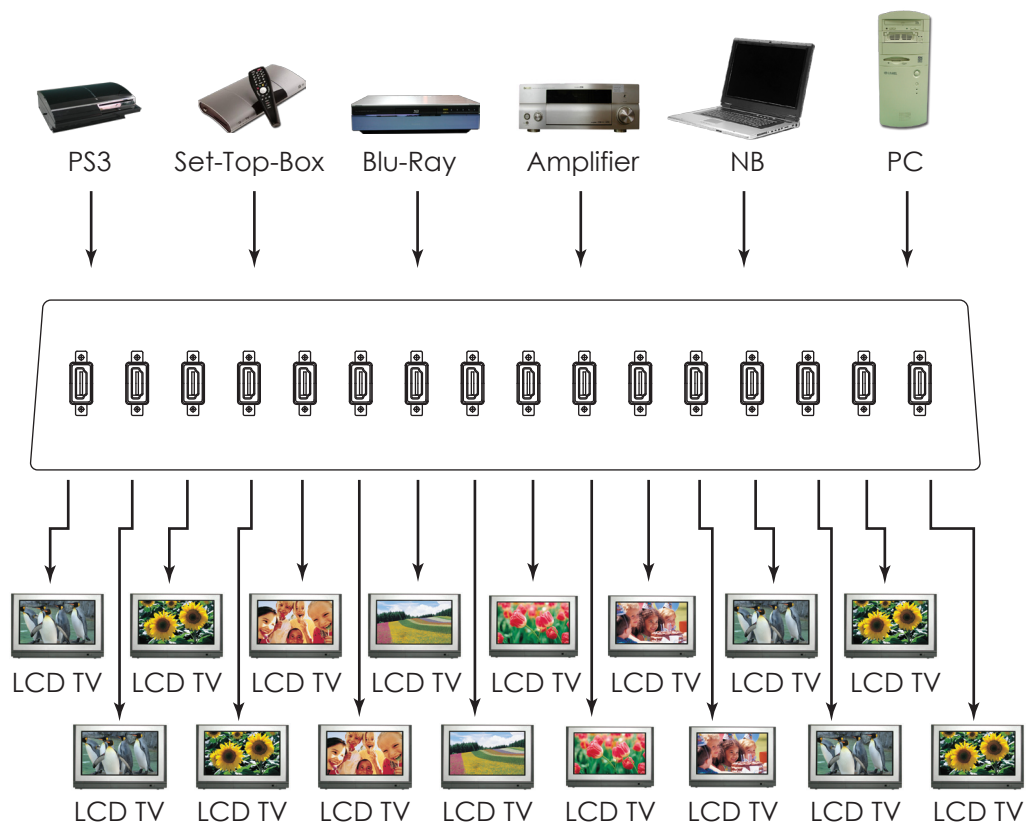

3. Features

- Used to connect HDMI cables in a 19" equipment rack.
- Heavy gauge steel and grit blast coating provides durability.
- Industry standard 2U panel height will fit most racks.
- With high quality HDMI connectors to ensure minimal signal loss.
- Includes a bracket for easy mounting.
- Great configurable solution for setting up a network.

4. Important warnings

- *Do not band or remote the HDMI connector(s) from the patch panel.*
- *Do not bump, scratch or drop the patch panel anytime.*
- *Do not use any detergent to clean the patch panel.*
- *Do not set any liquids or beverages on or through the patch panel or HDMI connectors.*

5. Connection and Installation
